SIMPLYBRACES

Dr Gareth Ho
Specialist Orthodontist

In complex and surgical cases, our expertise shines through. 3D modelling reconstruction aids in surgical planning and bone assessment, ensuring the highest level of accuracy in our treatment strategies.

Welcome to Simplybraces, the premier Advanced Digital Orthodontic Centre in Sydney! This centre is led by the esteemed Dr. Gareth Ho, our Principal Orthodontist with over 22 years of experience. Dr Gareth Ho is also a Paediatric Dental Specialist in Australia. We are committed to transform smiles and lives of our patients.

Simplybraces embraces the era of Artificial Intelligence (AI) & advanced 3D technology, taking orthodontic care to the next level. Our centre features state-of-the-art 3D facial scanning, 3D intraoral scanning, and 3D x-ray imaging, enhancing diagnosis and treatment planning. By combining invaluable data with other 3D information, we offer precise treatment customisation for every patient.
